Application 28.09.2016 (Academy Project Funding)

**RESEARCH FUNDING**

Academy projects

Topic	Pehmeiden ja kovien vuorovaikutusten vuoropuhelu relativistisissa raskasioneitörmäyksissä LHC-törmäytimen ALICE-kokeen mittauksissa Probing Soft-Hard Interactions in Relativistic Heavy Ion Collisions with ALICE Experiment at CERN LHC
	The Academy of Finland has decided not to grant the applied funds.
Justification for decision	Both the applicant and the proposed research plan are strong. However, the application was not selected for funding because even stronger applications within the field concerned were identified based on the expert review (item 1.1. in particular) and the Research Council's funding criteria (see <a href="http://www.aka.fi/RCNSE/criteria">www.aka.fi/RCNSE/criteria</a> , item 1).
	Teppo Häyrynen

No appeal may be made against a decision by the Academy concerning research grants, grants or agreements. No appeal may be made against a decision by the Academy concerning the granting of transfers as referred to in the Act on Discretionary Government Transfers (688/2001). In other respects, the provisions of Section 34 of the Act on Discretionary Government Transfers shall apply to transfers.
